

# PRIMA SYSTEM PALLET RACK INDUSTRIAL MOBILE AISLE

— Powered by Equipto

Save space and improve efficiency across the military base with industrial mobile aisle pallet racking.

## MILITARY READINESS

From central issuance facilities to warehouse cargo storage to logistic facilities and more — the EQUIPTO PRiMA System is designed around the physical space of your facility to maximize storage and create easy access to supplies. Make the most of limited storage space and keep supplies and bulk items organized. With pallet racking on our carriages that move side to side along rails increase storage capacity of OCIE, MREs, uniforms, field supplies and more by 75%.

# WHAT MAKES THE PRIMA UNIQUE

APPROVED DLA, DOD & U.S. GOVERNMENT VENDOR

## STORAGE CAPACITY —

Increase your storage capacity by 75% in the same footprint. With 8 or 10 ft carriage lengths, each carriage can hold up to 75,000 lb.

## CUSTOM-CONFIGURED —

The PRiMA System was designed with flexibility first and configured to meet your unique needs. Without modifying parts — custom configurations are done with ease.

## IN-HOUSE ENGINEERING —

Your insight and feedback are a critical part of our product development and iterative process in evolving our product solutions to be the best.

## INSTALLATION TEAM —

We install all of our product and provide full turn-key solutions to achieve the space solution you have desired and to ensure that your project is a positive experience.
